## AREA – The Voice of European Refrigeration, Air Conditioning & Heat Pump Contractors

### **Foreword by the President:**

*At a time when climate change and energy efficiency are at the heart of our attentions, the role of professional refrigeration, air conditioning and heat pumps contractors is essential in providing expert advice and high-standard services for our customers to make the right choice. AREA fulfils an important mission by promoting harmonised high-level professional standards, developing professional guidance, defending contractors' interests at European level, and voicing unbiased opinions on all refrigerants. This brochure provides a concise overview of our association, its mission, structure, activities, as well as the people who make AREA.*

**Graeme Fox, President of AREA**

**History** ■ Officially founded in 1989 at the initiative of Belgium, Denmark, France, Germany, Norway, Spain, Sweden and UK

■ **Original goals**

- Coordinate education & training to foster uniform qualifications and techniques
- Share information
- Promote environmental protection
- Make joint technical recommendations

**AREA today** AREA, the **A**ir conditioning and **R**efrigeration **E**uropean **A**ssociation, represents, defends and promotes the interests of 20 national associations of refrigeration, air conditioning and heat pumps contractors and engineers present in 17 European countries. AREA members presently represent more than 9,000 small and medium size companies employing some 125,000 people and with an annual turnover approaching €20 bn.

**AREA  
Mission &  
Objectives**

■ **General mission statement:** “support and initiate activities to promote the industry and its high standards of quality, in order to serve the users’ interest in a safe and uninterrupted usage of efficient refrigeration and air conditioning equipment, and to create and to maintain a favourable business climate for the refrigeration and air conditioning contractors, in terms of quality, safety, employment, fair competition and profitability”

■ **General objectives**

- Harmonisation of education & training / certification
- Promotion of technical evolutions
- Environmental protection / climate change / energy efficiency
- Recommendations on and promotion of professional techniques & high-level standards

**Ongoing  
activities**

■ **Regulatory aspects**

- F-Gas implementation & review
- Monitoring of ODS
- Energy Efficiency
- Climate Change
- Eco-design of energy-related products

■ **Professional standards**

- Heat Pumps installation
- F-Gas leakage testing

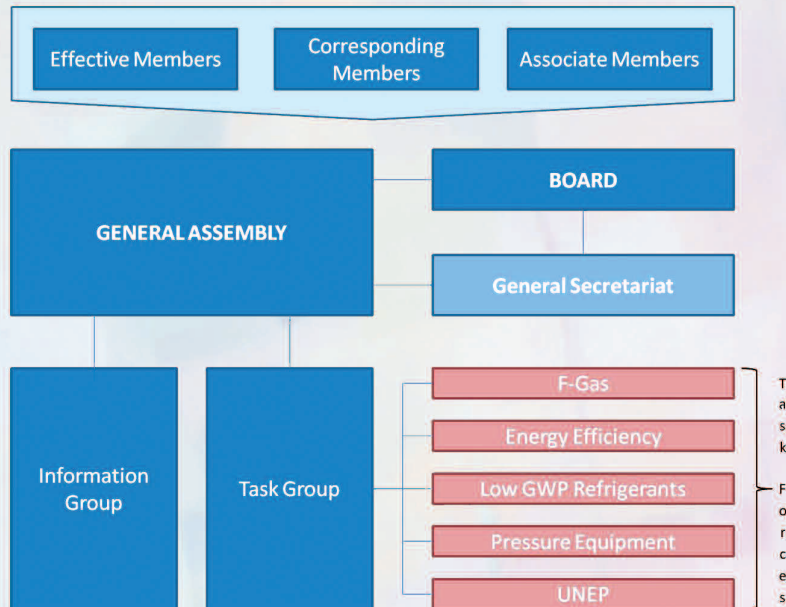

■ **Professional guidance**

- Low GWP refrigerants
- Heat pumps

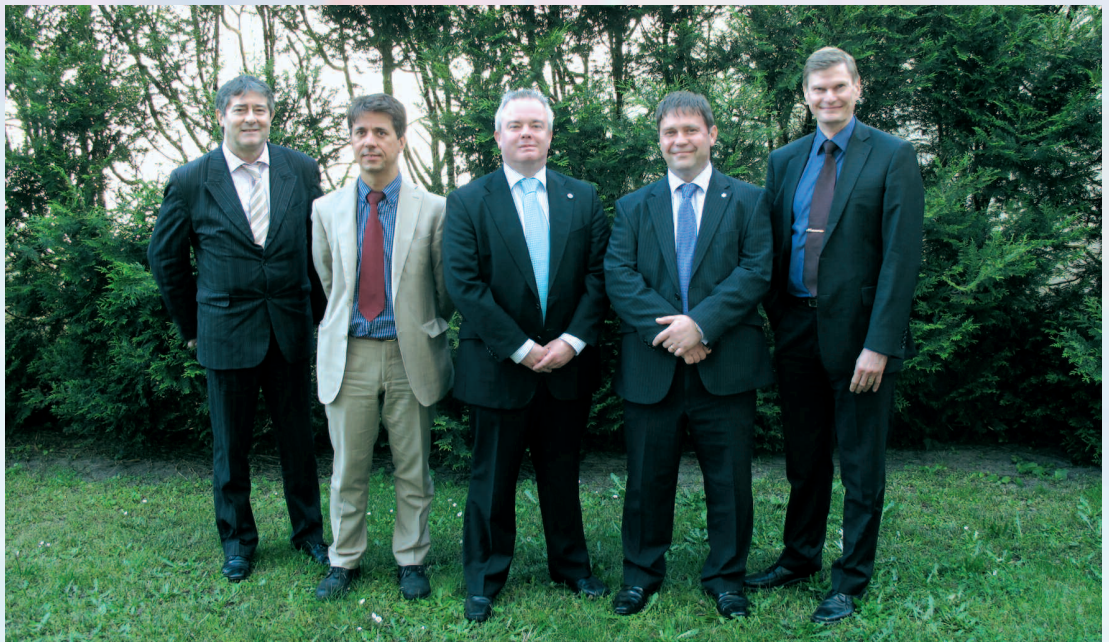

## AREA structure

### Officers:

*President* **Graeme Fox** (B&ES/RACG, United Kingdom)  
*Vice-President* **Marco Buoni** (ATF, Italy)  
*Treasurer* **Per Jonasson** (KYL, Sweden)  
*Director* **Peter Bachmann** (BIV, Germany)  
*Director* **Philippe Roy** (SNEFCCA, France)

Left to right:  
 P. Roy, M. Buoni,  
 P. Bachmann, G. Fox,  
 P. Jonasson

### AREA activities are mainly undertaken by several working bodies:

- **Information Group**, in charge of assessing any regulatory, legislative, vocational or technical issue relevant to the refrigeration, air-conditioning and heat pumps contracting sector, and devising strategies and work plans.
- **Task Group**, in charge of streamlining and coordinating the activities and priorities of ad hoc task forces.
- **Task Forces** active to deal with specific issues and formulate draft positions.

### Membership benefits

- Access to information on relevant EU regulatory developments
- Defense & promotion of contractors' interests at European level
- Contacts with decision-makers & other stakeholders
- Information exchange & networking with fellow European contractor
